Interim Superintendent of Schools
Dr. Brenda Larsen-Mitchell

Dear Students, Families, Educators, and Community,

The Clark County School District prioritizes the safety and wellbeing of our students and staff by fostering a safe learning environment in all schools, we will significantly contribute to the success of our students.

The *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* has been updated to include enhanced measures resulting from legislation through collaborative efforts between the District, School Organizational Teams, the Nevada Department of Education, and State Legislators. These enhanced measures align with the outcomes of the 82nd Session of the Nevada Legislature, reflecting our commitment to continuous improvement and student success and safety. While maintaining policies for school safety, these revisions increase the integration of restorative practices. These practices provide an alternative and beneficial approach, while emphasizing dialogue, understanding, and accountability. The benefits of restorative practices include fostering a sense of community, repairing harm, and promoting positive relationships among students, staff, and the broader school community.

As the District prioritizes student and staff safety, students possessing weapons, specifically firearms or other dangerous items, and those who harm our students and employees will be immediately referred to appropriate law enforcement. Parents/Guardians should emphasize the importance of reinforcing behavioral expectations with their children. Please discuss the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* and thoroughly review the content through conversations at home.

The District emphasizes the importance of daily student attendance to maximize learning and achieving educational goals. Every effort will be made to minimize educational disruptions and exclusionary practices, apart from serious disciplinary infractions. The priority is to utilize positive behavior support to encourage appropriate student behavior. In instances in which this is not feasible, the District is committed to applying equitable and reasonable resolutions to foster improvement in student behavior.

The District appreciates your ongoing support in strengthening safety for our students and staff. After reviewing the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct*, please check the acknowledgement box in Infinite Campus during registration or submit the Acknowledgement of Receipt and Review Signature Form to your child’s school. By working together as one community, we can create school learning environments that cultivate safety, engagement, and achievement for all students.

In Partnership,

Brenda Larsen-Mitchell, ED. D.
Interim Superintendent of Schools

Commitments to Addressing Student Behavior

- The Clark County School District (District) defines student incident response as **proactive and preventative**.
- Staff responds to incidents from an **inquiry process** that seeks to identify the root cause of student behaviors or incidents.
 - To determine who is the “harm doer” (offender) and the “harm experiencer” (victim)
 - To guard against biases in the process
 - To understand the root cause of behavior to prevent future incidents
- The District provides explicit and clear guidance about which **level of consequence** is appropriate for which kinds of behavior.
 - The *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* document contains explicit guidance and specific examples of which types of interventions and/or consequences should be considered.
 - It also clarifies which behaviors should be handled at:
 1. A classroom level (with support as needed);
 2. A school level (with support); and
 3. The District level.
- The District will focus on **prevention, interventions, and consequences**, while understanding **exclusion may be a necessary and last-resort option**.
 - Consequences must be accompanied by interventions for the student(s) involved. If not, the District is very likely to see repeat behaviors or incidents between the same individuals and/or groups.
- The District will address the **most extreme and dangerous situations differently than day-to-day situations**.
 - The District follows the existing guidelines of the District and State:
 1. Violent acts and weapons.
 2. Threats to self and/or others.
 3. Mandated involvement of law enforcement.
 4. Imminent danger.
 - The District acknowledges that in some circumstances, swift consequences are necessary to either preserve safety and/or to help students understand the severity of the impact of their choices with interventions and restorative actions occurring after the consequence.

Key Shifts 2024

- The District is working towards a shift from treating negative behavior as something to be controlled to believing behavior is a symptom of an underlying issue and to determine the root cause in order to develop students’ skills and habits.
- The District is working towards a shift from informing families about negative behaviors to engaging families as true partners who can help students grow academically, socially, and emotionally.
- The District is working towards a shift from the mindsets that some students are well-behaved and others are not to practices that recognize all students are capable of learning new behaviors with the support and guidance of dedicated educators who develop mutually meaningful and positive relationships with them.
- The District is working towards a shift from thinking student discipline is the job of administrators and campus security to recognizing that all adults, teachers especially, have an important role to play in student wellbeing, including and especially in times of conflict and struggle.
- The District is working towards a shift from treating incidents as isolated occurrences to proactively building relationships, observing patterns, and looking for the root cause to ensure long-term growth.

PURPOSE OF THE DOCUMENT

The purpose of this document is to familiarize stakeholders with specific behavior incidents and the potential consequences for student behavior violations. Additionally, all employees of the District will utilize the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* while determining disciplinary outcomes for students. This document contains all of the individual discipline incident codes with the definitions, Infinite Campus/student accounting code, potential discipline resolution(s), related notes, and resources, if applicable, associated with each behavior incident.

SAMPLE

Definition: This area will provide the meaning of each behavior incident.	
Infinite Campus Code: XYZ Staff/Administrative Managed Resolutions	
Minor Listing of potential resolutions utilized by staff	Major Listing of potential disciplinary outcomes for students
Notes: Specific notes detailing information related to the behavior incident. Additionally, incident notes assist with what additional requirements may relate to the behavior incident.	
Resources Additional supporting information from Nevada Revised Statutes (NRS) or other resources in relationship to the behavior incident.	

INCIDENT TYPE DEFINITIONS

In an effort to optimize equitable application of disciplinary consequences for students, it is important to differentiate and define all types of disciplinary incidents. The behavior incident sample table above includes terminology explaining if the behavior incident is staff-managed, office-managed, or administrative-managed referring to the personnel/employees directly addressing the behavior incident.

MINOR BEHAVIOR INCIDENTS Minor Behavior Incidents are staff-managed behavior incidents that are addressed by school personnel such as a classroom teacher, when applicable. Minor Behavior Incidents violate school or classroom rules or procedures.
MAJOR BEHAVIOR INCIDENTS Major Behavior Incidents are office-managed behavior incidents that are addressed by staff and/or administration. They are severe in nature or are habitually repeated. Major Behavior Incidents that violate District Policies and Regulations, impact student or staff safety, or cause property damage may be subject to law enforcement involvement. Major Behavior Incidents include discretionary, expellable offenses.
URGENT BEHAVIOR INCIDENTS Urgent Behavior Incidents are administrative-managed behavior incidents that are addressed by administration only with an immediate response. Urgent Behavior Incidents are identified as expellable offenses per NRS or District Policies and Regulations.

DISCIPLINE RESOLUTION CRITERIA

In addition to the type of behavior incidents, educators use a criteria to determine the level of consequence being considered for individual students which may vary in range from Minor to Major. The criteria include sections and considerations for Minor Behavior Incidents, Minor to Major Behavior Incidents, Major Behavior Incidents, and Urgent Behavior Incidents. The application of these criteria are useful for all incidents contained in the Behavior Incident Index located on page 13. Educators will analyze the criteria in connection to an individual behavior incident to ensure safety, optimize equitable application related to Behavior Incident Resolutions, and limit exclusionary discipline practices that cause missed school opportunities for students. The *Discipline Resolution Criteria* are below:

Minor

The behavior incident resolution determinations within the Minor Resolutions involves an analysis of repeated incidents or violations of the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* on District property or at any District/school-sponsored event or activity. Multiple Minor Resolutions may be required to address student behavior incident violations in a proactive manner.

Questions to consider prior to the issuance of Resolutions in the Minor Category:

- *Is the incident isolated to the classroom and easily managed by staff through redirection methods and intervention?*
- *Can student reflection be promoted to ensure future behavior incidents do not occur?*
- *Will the behavior incident create a “teachable moment” between educators and students?*
- *Can the re-engagement of the student to learning happen in the classroom with immediate education professional intervention?*

Minor to Major

The behavior incident resolution determinations within the Minor to Major Resolutions involves an analysis of repeated incidents or violations of the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* that may create safety issues for other students, employees, or the individual student initiating the behavior incident.

Questions to consider prior to the issuance of Resolutions in the Minor or Minor to Major Category:

- *Is the educational professional working with the student able to clearly identify, recognize, and prevent unacceptable behavior occurring in the classroom?*
- *Is the student in Pre-Kindergarten (Pre-K) through Grade 2? If so, you must contact the Region Education Services Division (ESD) director for guidance prior to implementing a Suspension With Instruction (SWI).*
- *Can the educational professional working closest with the student promote self-discipline of the individual student while redirecting the minor infraction to ensure that classroom instruction for all students continues?*
- *Has a counselor, social worker, or other school professional attempted to determine the antecedent of the behavior(s) creating a violation of the Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct?*
- *Has there been any proactive academic supports provided in the classroom to support the student’s learning needs?*
- *Has the student been referred to the Multi-Tiered System of Supports (MTSS) team to determine if there is a need for school-based Tier II and Tier III support?*
- *How did the student react to positive redirection when violation(s) of the Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct occurred?*

- *Has the parent/guardian been informed of previous Minor Behavior Incidents? What evidence exists regarding telephone call logs to parents/guardians, meetings, and electronic or written communication to the student's parents/guardians? Has reasonable effort occurred to contact the parent/guardian?*
- *Were any non-exclusionary disciplinary techniques provided to the student(s) to ensure compliance with the Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct prior to a Major Discipline Resolution?*
- *Was an educational professional able to distinguish between Minor and Major offenses and account for first time versus repeated offenses?*
- *Can the individual student accept responsibility with a lesser consequence and articulate the harm caused by a behavior incident violation?*
- *After reviewing the discipline referral, is there a more appropriate solution to serve this student and retract the discipline referral?*
- *If removal from school is an appropriate and allowable resolution, how will the school provide SWI to ensure that the student is offered instruction, has real-time access to an instructor, and the suspension does not impact chronic absenteeism?*

Major

The consequence level within the Major Resolutions involves frequency of occurrence related to disciplinary incident(s) and behavior incident severity determinations being made after an analysis of historical school counseling and other proactive efforts, and offered wraparound interventions provided to the student at the school.

Questions to consider prior to the issuance of Resolutions in the Major Category:

- *Could a less punitive discipline resolution within the Major Discipline Resolution change the student's behavior in a positive way? Are community service efforts on the school campus available for the student to learn from violations of the Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct (i.e., school beautification)?*
- *Were any restorative practices/techniques provided to the student(s) to hold them accountable and assist the student in helping them correct their behavior?*
- *Does this student have an Individual Education Program (IEP) or Section 504 Plan, in Foster Care, or identified as homeless? If so, refer to the appropriate section in the Appendix.*
- *Has parent/guardian contact been ongoing in relationship to previous violations of the Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct? What documentation exists showing the ongoing communication efforts with parents/guardians? Has reasonable effort occurred to contact parents/guardians?*
- *Did the behavior incident create a substantial disruption on the campus? Did the incident jeopardize the safety/wellbeing of others or the individual student involved in creating the behavior incident?*
- *Based on the behavior incident violation, does the discipline determination impact the culture and climate of the school related to adherence to school rules and expectations?*
- *If removal from school is an appropriate and allowable resolution, in lieu of Suspension, is SWI being offered to provide the student with daily, real-time instruction and interaction with licensed personnel?*

In relation to Major Behavior Incidents, the following parameters should be incorporated.

Urgent

Urgent Behavior Incidents may lead to expulsion recommendations unless the incident involves weapons as defined in NRS 392.466.

Racially Motivated Incidents:

- *Racially Motivated Incidents - Color (RMC1)*
Color refers to a group of people distinguished by skin pigmentation, especially as an indication of someone's race.
- *Racially Motivated Incidents - Culture (RMC2)*
Culture refers to a racial, religious, or social group's customary beliefs, social forms, and material traits (Merriam-Webster). The Oxford Dictionary defines culture as people's way of life, including their attitudes, values, beliefs, arts, sciences, modes of perception, and habits of thought and activity.
- *Racially Motivated Incidents - Ethnicity (RME)*
Ethnicity refers to large groups of people classed according to the common racial, national, tribal, religious, linguistic, or cultural origin or background. It is linked with cultural expression and identification (National Geographic). Ethnicity also pertains to shared cultural characteristics such as language, ancestry, practices, and beliefs. Ethnicity describes the culture of people in a given geographic region, including their language, heritage, religion, and customs (Washington University in St. Louis). According to the United States Census Bureau, ethnicity determines whether a person is of Hispanic origin. For this reason, ethnicity is broken into two categories, Hispanic or Latino and Not Hispanic or Latino. Hispanic or Latino people may report as any race.
- *Racially Motivated Incidents - Language (RML)*
Language refers to a system of conventional spoken, manual (signed), or written symbols through which human beings, as members of a social group and participants in its culture, express themselves. Language is a communication system used by a particular country or community (Encyclopedia Britannica).

- *Racially Motivated Incidents - National Origin (RMN)*
National Origin refers to a person's, or their ancestor's, country of birth or because a person has physical, cultural, or linguistic characteristics of a national origin group (Department of Workforce Development, Wisconsin.Gov). For example: Place of birth; cultural, linguistic, or physical features; association with a national group
- *Racially Motivated Incidents - Race (RCE)*
Race refers to any one of the groups that humans are often divided into groups based on physical traits regarded as common among people of shared ancestry (Merriam-Webster). The Encyclopedia Britannica refers to race as identifying groups of people by physical attributes, appearance, or characteristics. The United States Census Bureau defines race as a person's self-identification with one or more social groups. Race is usually associated with biology and physical characteristics such as skin color or hair texture (National Geographic). Race ascribes the division of people into groups based on physical traits and assigns social meaning to those groups (Washington University of St. Louis).
- *Racially Motivated Incidents - Religion (REL)*
Religion refers to believing in and worshipping a superhuman controlling power, especially a personal God or gods. Religion alludes to a particular system of faith and worship (Oxford Dictionary). Merriam-Webster defines religion as a personal set or institutionalized system of religious attitudes, beliefs, and practices. This definition is extended to the service and worship of God or the supernatural, which encompasses the commitment or devotion to religious faith or observance.
- Any action taken after the completion of the investigation to address discrimination based on race, bullying, or cyberbullying incidents must be based on restorative disciplinary practices and carried out in a manner that causes the least possible disruption for the victim or victims.

STUDENT RIGHTS AND RESPONSIBILITIES

It is the intent to allow students maximum freedom under law, commensurate with each school's responsibility for student health, safety, and welfare. The rights and responsibilities presented in this section reflect the need for providing students with greater opportunities to serve themselves and society. A goal of all public education is to have students become responsible adults in a free society.

This requires that students learn to be sensitive to the needs and rights of others and to be aware of the consequences of the actions of themselves and others. Students therefore have a responsibility to protect the rights of other students. Students must realize that every right implies a responsibility, and that they should conduct themselves appropriately. It is the student's responsibility to make appropriate choices on and off campus and report any safety concern to school staff.

Students enrolled in the Clark County School District have the responsibility to abide by the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct*, the *Educational Involvement Accord*, and the *Nevada Code of Honor* as it is an obligation of schools to provide a safe and respectful learning environment. Within every school, the principal and staff have the responsibility and authority for maintaining an orderly educational process. School rules are necessary to place limitations on unacceptable behavior in school. They serve not only to restrict undesirable behavior, but also to teach proper behavior. Students are citizens of the greater Clark County School District community and represent Clark County schools at all times.

PARENT/GUARDIAN RIGHTS AND STUDENT SAFETY SEARCH INFORMATION

Parent/Guardian Rights

It is the intent to provide opportunities for parents/guardians to participate in the education of their child(ren), under law, commensurate with each school's responsibility for student health, safety, and welfare. Within every school, the principal and staff have the responsibility and authority for maintaining an orderly, safe and respectful learning environment. The rights and responsibilities presented in this section reflect the need for providing parents/guardians with opportunities to participate in and advocate for the educational welfare of their child(ren) as mutually supportive and respectful partners in the education of their children.

As a parent/guardian, you have a right to be included in all aspects of your child's education through meaningful, respectful participation due to each member of the school community. You have the right to access your child's school records within the guidelines defined by the Family Education Rights and Privacy Act (FERPA). Parents/Guardians are informed in advance about school rules, including disciplinary rules and procedures, and possible behavior incident resolutions. Parents/Guardians can participate in local school organizations and volunteer activities, as well as participate in decision-making processes affecting school policies and procedures.

As a parent/guardian of a Clark County School District student(s), it is your responsibility to work with school staff and review the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct, Educational Involvement Accord*, and the *Nevada Code of Honor* with your child(ren). Prepare your child(ren) for the understanding that they are responsible for their own behavior in school, at school sponsored activities, and on the way to and from school. Prepare your child(ren) to assume responsibility for their own behavior and regular compliance with attendance rules and procedures. It is essential to recognize that school staff have the right to enforce all policies, rules, and regulations of the Clark County School District.

Student Victim(s) and Parent/Guardian Notification

Parents/Guardians of students who may be victims as a result of other students violating a code in the Behavior Incident Index should be contacted immediately or soon after the facts are identified in relationship to the potential impact to a student victim. Some parental collaboration with law enforcement will be necessary in certain instances; however, the Clark County School District administration recognizes that student victims and the parents/guardians must be made aware of information and facts that may directly impact the wellbeing of their child(ren). Communication with families must remain a priority as they are, in fact, our partners in educating the children of the Clark County School District.

Student Rights Pertaining to Searches

What are the requirements for Notice of Student Searches?

- Regulation 5144 and the Student Safety Search Form from Infinite Campus provides an overview of this requirement.
- Reasonable Suspicion - Reasonable facts and inferences and/or information to show it is likely that a student is hiding evidence and the student has broken or is about to break school rules. A hunch does not equal reasonable suspicion.

- Must be reasonable at inception based on information, facts, or circumstances, which would lead a reasonable person to conclude that a search will expose evidence of the violation of a school rule based on:
 - Reliable witnesses.
 - Specific information regarding contraband or location of contraband.
 - Information being recent and credible.
- Must be reasonable in scope - Based on age of the student, gender of the student, and the nature of the alleged infraction.

What are the requirements for Notice of Student Questioning?

- Administration has the authority and responsibility to question students in order to maintain a safe, respectful, orderly, and positive educational environment. Parent/Guardian consent is not required prior to questioning a student regarding violation associated with the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct*.

STUDENT SAFETY SEARCH FORM

Searches of a student's person or possessions while at school must be reasonable. Reasonableness requires that the search be justified prior to its commencement and be related to the circumstance giving rise to the search. Absent extraordinary circumstances, a student's person and possessions may be subject to search on school property only if:

1. The student voluntarily consents to the search; or
2. Prior to a search there is an individualized, reasonable suspicion that the student is hiding evidence of wrongdoing; and
 - a. A search is necessary to maintain school discipline, order or safety, and to prevent the removal or destruction of evidence, and
 - b. The search is reasonable in scope and methods as related to the alleged wrongdoing and the age and sex of the student, and
 - c. The search is conducted in accordance with Regulation 5144; or
3. Appropriate law enforcement authorities conduct the search.

STEPS TO TAKE IN SEARCHING A STUDENT:

1. Must be conducted by a school administrator or designee in the presence of another school district employee as a witness.
2. Tell the witness in the presence of the student what you are looking for and why.
3. Ask the student for consent.
4. Make a reasonable effort to notify the parent/guardian before, or, as soon as possible, after any search of the student's person.

Process Definitions

Restorative Practices

Restorative practices is a field within the social sciences that studies how to strengthen relationships between individuals and social connections within communities. These practices aim to build healthy school communities, increase social capital, decrease conflict and antisocial behavior, repair harm, and restore relationships. Restorative practices occur on a continuum from informal to formal (depending on the incident severity) and are used proactively on an ongoing basis, to build healthy relationships, strengthen community, and responsively address conflict and misbehavior.

Restorative practices promote:

- Belonging over exclusion from school.
- Social engagement over control.
- Meaningful accountability over excessive or unnecessary punishment.

Restorative practices are based on **relationships, respect, responsibility, repair, and reintegration**. While some severe antisocial behaviors may never involve restorative practices or involve victims hearing from or being exposed to perpetrators after inflicted harm, restorative practices for most behavioral incidents are impactful.

Relationships and respect:

- Address damage caused by inappropriate behavior.
- Acknowledge how people/students have been affected.
- Attempt to mend and rebuild relationships.
- Encourage active listening so that understanding of the impact of inappropriate behavior is understood.

Responsibility

- Internalize the impact and encourage ownership of the inappropriate behavior

Repair and Reintegration

- Repair damage caused by the behavior to a victim.
- Develop strategies to ensure that the inappropriate behavior is not repeated.
- Establish agreements, strategies, support, and follow up to monitor student progress.

The District's Multi-Tiered System of Supports (MTSS) targets academic, behavioral, and social-emotional supports to students in a tiered approach depending on student need. Behavioral infractions are managed by educators in proactive ways in an attempt to improve student behavior and promote sustained, appropriate behavior in the future. The *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* highlights minor and major behavior infractions that can be managed in alignment with the tiers of MTSS. Examples of useful restorative practices are below:

Tier I

Proactive Actions/Minor Infractions

Affective Statements

Purpose: Provide a structure for reinforcing desired behaviors while challenging and redirecting unwanted behaviors through statements.

Strategy: Statements telling the listener/student how the person feels and why it makes them feel a certain way. Affective statements are an effective way to teach students how to express emotions appropriately. Affective statements also allow teachers and students to communicate how they are being affected by another person's behavior through clear "I" statements. An example includes a teacher stating, "I appreciate your excitement about the lesson. I need for you to follow our speaking agreement and not speak when I am speaking to the class so you and your classmates can hear my directions." By using this type of statement, the student can hear the specific behavior expected and the behavior that is not welcomed. The statement also indicates how the behavior impacts themselves and others in the classroom. Affective statements can convey positive emotions to students making good choices.

Affective statements:

- Demonstrate that staff cares about students.
- Build relationships.
- Connect people while preventing escalating behaviors.
- Use personalized language focused on the behavior, are respectful, and promote that students express their feelings.

Community Circles

Purpose: Allows students to get to know each other and establish positive connections, including agreements about how they will treat others in the school community. Community-building activities are a major focal point of proactive circles and account for 80 percent of the use of the circle structure.

Strategy: Proactive circles can be community-building circles, social-emotional learning skill circles, celebration circles, opening of class or school circles, or learning circles focused primarily on establishing relationships or academic content. They can be used in all types of classrooms (advisory, core classes, or other specialty classes). Conducting regular circles to build relationships, discuss expectations, and address minor concerns assists with the learning environment and school community.

Tier II and III

Moderate to Major Infractions

Restorative Questions

Purpose: These questions lay the foundation for and act as the building blocks for all forms of restorative practices. These questions explore motivations, perspectives, root causes of challenging behaviors, and solutions while attempting to build and restore relationships. Restorative questions are used to help students take responsibility for actions and connect this responsibility with how they are feeling.

Strategy: Restorative questions provide opportunities for discussion and guide what supports are needed to prevent behavior from repeating or escalating.

Questions to ask in response to a challenging behavior when someone has been mistreated include:

- What happened?
- What were you thinking of at the time of the incident?
- What have you thought about since the incident?
- Who has been affected by what you have done? In what way have they been affected?
- What do you think you may need to do to make things right?
- What impact has this incident had on you and others?

Restorative questions:

- Are open-ended and non-blaming.
- Allow for attentive listening.
- Allow for all students involved to identify thoughts and feelings associated with particular actions.
- Provide a forum for meaningful expression of emotions (i.e., affective statements).
- Focus on impact and how other students were affected by the action(s).
- Are an inclusive and collaborative approach to problem-solving, emphasizing solutions rather than assigning blame.
- Hold students accountable and attend to the needs of those mistreated.
- Resolve underlying issues or root causes that produce challenging behavior.

Small Impromptu Conversations/Conference

Purpose: Fosters awareness, empathy, and responsibility to fortify social discipline.

Strategy: This process blends informal and formal approaches of restorative practices. Minor or low-level incidents can be addressed by small impromptu conversations/conferences. Conversations can be five to ten minutes between two or more students. Whether an incident occurs in a classroom, hallway, cafeteria, or during student travel, small impromptu conversations/conferences brings students together to discuss and resolve issues instead of allowing incidents to escalate. These conversations initiate with a positive tone and allow students to reflect on constructive things before addressing the current problem. During the conference, staff use restorative questions, asking the student what happened in relation to the current incident, what the student was thinking before and after the current incident, who was affected, and what will need to occur to make things right.

Students involved in the incident tell their side of the events and explain how they were involved. Once the issue is identified, both sides work to figure out how to heal from the harm and explain what needs to occur so that productive interaction can occur in the learning environment moving forward. At the conclusion of the small impromptu conversation/conference, staff will check in with both sides several days or a week later to determine progress of the students.

Reflection Sheets

Purpose: Address small conflicts and misunderstandings early. Reflection sheets encourage self-reflection and accountability.

Strategy: Facilitate a conversation between the involved parties to express feelings, discuss impact, and find resolutions that are captured on reflection sheets. Students may complete reflection sheets to consider the impact of their actions and develop a plan for improvement.

Fully Restorative Circles or Conference

Purpose: Involve a broader group in addressing more serious incidents through a structured meeting including the offender, victim, and the community of care (family members and/or friends). The purpose of this community conference is to hold the offender accountable.

Strategy: A script is used by the administrator or co-facilitator to ask each participant a series of open-ended restorative questions. The script intends to limit the role of the facilitators. At the conclusion of the conference, a written agreement exists outlining each participant's responsibilities to repair harm and maintain respectful relationships. Additionally, the written agreement explicitly details how repeated inappropriate behaviors will be prevented. All participants have a role in detailing what becomes part of the conflict resolution written agreements.

Community Service Projects

Purpose: Encourage a sense of responsibility and contribution.

Strategy: Assign community service projects that align with the severity of the infraction, allowing the student to give back and learn from their actions.

Family Group Conference

Purpose: Operated in a similar manner to restorative or community conferences; however, family group conferences involve only the student's family exclusively in the decision-making process.

Strategy: Families are provided with alone time as the facilitator leaves the setting. The student and family members establish a plan. Once the plan is drafted, the facilitator reengages and enters the setting where the family explains the plan. The facilitator may ask the family and student to adjust the proposed plan.

Peer Mediation

Purpose: Empower students to resolve conflicts with peer support.

Strategy: Train peer mediators to facilitate discussions and assist in resolving disputes between students. This youth leadership model helps others resolve differences. Students utilize conflict resolution practices and social skills to increase peace and reduce violence in school. An effective peer mediation model has proven to decrease student discipline referrals, violence, and out-of-school suspension rates.

Responsive Circles

Purpose: Allows the use of high-quality questions to explore challenging circumstances and more toward repairing harm. May include families, students, and staff to construct agreements. Questions are asked to move students to empathy and forgiveness.

Strategy: This structure can be perceived as intense and center on rebuilding relationships through conferencing, collaboration, and mediation. All participants collaborate and develop an agreement that details specific actions that the student who caused harm to the school community agrees to engage to repair harm and restore damaged relationships. Natural consequences may also be delineated in the established agreement.

Victim-Offender Dialogue

Purpose: Allow direct communication between the victim and offender.

Strategy: Facilitate a structured dialogue where the victim expresses their feelings, the offender takes responsibility, and both collaborate on a plan for restitution and future behavior.

MULTI-TIERED SYSTEM OF SUPPORTS

The District MTSS framework, a comprehensive and integrated system, is designed to enhance student achievement by providing high-quality academic, social-emotional, and behavioral instruction and intervention. It offers a range of equitable instruction, beginning with core instruction and universal support in Tier I, to targeted support for some students in Tier II, to intensive support for a few students in Tier III. Students move fluidly through the tiers based on their individual needs as they gain or strengthen skills.

The District MTSS framework relies on a problem-solving process to identify concerns, develop interventions, and evaluate their effectiveness in a multi-tiered system of service delivery. Student progress is monitored frequently to determine the effectiveness of instruction and determine if instructional adjustments are necessary to achieve academic and/or behavioral learning goals.

The Intersection of the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct*, MTSS, and Restorative Practices.

The connection between the code of conduct, MTSS, and restorative practices lies in their shared goal of fostering a positive school climate, supporting student success, and effectively addressing behavioral issues.

- The *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* provides the foundational expectations and consequences for student behavior. It establishes clear standards for desired behavior, outlines consequences for undesired behavior, and promotes a safe and respectful learning environment.
- MTSS is a framework that provides varying levels of support based on students' needs, encompassing both academic and behavioral interventions. Within MTSS, the code of conduct informs the behavioral expectations at Tier I (universal supports) that apply to all students. For students requiring additional support (Tiers II and III), MTSS includes targeted and intensive interventions to address specific behavioral issues.
- Restorative practices focus on building and repairing relationships rather than solely relying on punitive measures for addressing behavioral incidents. These practices emphasize accountability, empathy, and the restoration of harm caused by behavior. Restorative approaches can include dialogue, circles, mediation, and other techniques aimed at resolving conflicts and promoting understanding. Restorative practices offer an alternative or supplement to traditional disciplinary approaches, emphasizing relationship-building and repairing harm within the school community. Restorative practices align with the principles of MTSS by providing proactive and reactive interventions that can be included in Tier I strategies to build a positive school culture. These interventions may also be used in Tiers II and III to address specific incidents, focusing on understanding the root causes of behavior, promoting accountability, and facilitating healing.

The *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct* sets universal behavioral expectations, MTSS provides a structured framework for supporting and addressing student needs at various levels, and restorative practices offer methods for building students' social awareness, positive school culture, and addressing conflicts constructively. Together, they create a holistic approach to managing student behavior and promoting a positive and supportive educational environment.

RE-ENTRY STRATEGIES

A student returning to school after a removal from school or other exclusionary disciplinary action may exhibit a range of emotions. The student may feel anger, betrayal, embarrassment, and a sense of distance. The student has missed academic instruction and the social dynamic associated with attending school. It is likely that peers are aware why the student has not been in school; the student's teacher and administrators have talked with parents/guardians who are most likely concerned, and now the student must anxiously return to face peers, teachers, and administrators. Though this situation is far from perfect, what happens next may affect the remainder of the school year for that particular student. This represents a critical moment for connection and problem solving.

Whether the result of a minor infraction or something more problematic, mistakes are how learning occurs. For some, this learning comes harder than it does for others; some mistakes are bigger. It is incumbent upon us to address and correct misbehaviors – and this may mean excluding a child from school. There are few messages that an educator can send to a child as powerful as, "You can't be in my classroom right now."

When necessary, it can be a necessary tool to prevent and correct behaviors. However, the removal from school is just the beginning of the corrective process. What happens when a student returns to school is also a critical factor in the process.

Schools and their staff are key to this process and each school should create a system for re-entry that makes sense for their school community. Schools can improve outcomes for students, make their campuses safer, and reduce the chances that a student will reoffend.

School leadership should encourage a team approach to student re-entry. This team may include an administrator, counselor, social worker, transition specialist, or other professionals to help guide a successful re-entry process. Teams should focus on a process that ensures a smooth transition, appropriate placement, therapeutic support, multi-system collaboration, and one that develops a plan to monitor and evaluate progress. This process is key to establishing student-centered support systems for successful student re-engagement that include safety, support, care and connectedness, engagement and challenge, and peer social and emotional connections.

Parents/Guardians will play a key role in successful re-entry strategies as well. Parents/Guardians should talk with their child(ren) and think together about the goals of returning to school. Reflect on how your child's behavior might have looked through the school's eyes. Create a list of suggestions for support and skills your child might need to prevent future problems. Reflect on the facts, as you know them and talk with your child about how the situation could have gone differently and what you expect when they return. The goal of the re-entry process is to support the student's ability to be successful in school when they return following a period of short-term or long-term exclusionary discipline. Re-entry practices will assist students and ensure future discipline offenses are minimized.

Creating re-entry plans: Why re-entry procedures are important

- Adverse student behaviors are often a way for students to communicate unmet needs.
- If a student has been removed or away from class, either temporarily or long term, there is harm that needs to be addressed.
- It is insufficient to return students back into class and expect them to figure things out on their own.
- Without thoughtful re-entry plans, we are likely to have secondary, and potentially escalating, incidents.

Components of successful re-entry plans

- Preview what their time away from school will look like
- Where will they be staying?
- What are they going to be doing?
 - What schoolwork will they complete?
 - Who can they talk to if they are feeling stressed or anxious?
 - How will they meet their basic needs?
 - How can they avoid negative decisions?
- Prepare for when the student returns
 - Identify a staff member to support student during the re-entry process
 - Coordinate calendars, schedule re-entry, and inform family of date/time
 - Prepare necessary documentation for re-entry plan
 - School personnel must be prepared to facilitate mediation if one is needed upon return
 - ✓ Facilitated by a trained adult
 - ✓ In a non-judgmental and confidential space
 - ✓ To discuss needs, concessions, interventions/supports, and a plan for repair
 - ✓ See *Restorative Practices* on page 54 to see list of possible actions

Change-in-Placement

The District is focused on determining the antecedent of each student's behavior and is committed to a student's re-entry to the originally assigned school.

- Change-in-placement criteria is codified in NRS 392.466.
- Change-in-placements are permitted for mandatory and recommended expulsions.
- Change-in-placements are determined on a case-by-case basis for discretionary expulsions.
- Change-in-placements are not permitted for an Academic Center Recommendation.

UNDERSTANDING THE WARNING SIGNS OF VIOLENCE

The information listed below is to familiarize you with the warning signs of violence and some tips for prevention. This information should be used as a guideline only. The presence of one or more of these warning signs does not mean that a young person will exhibit violent behavior. It is important to keep in mind that there are many possible factors that could contribute to youth violence.

RULES OF CONDUCT FOR BUS RIDERS

The students on the bus are in the immediate supervision of the bus driver and are, thus, subject to the rules set by the Clark County School District Board of Trustees and the State of Nevada. Any offense of these rules by a student is to be documented on a School Bus Incident Report to Parents issued by the bus driver concerning the disciplinary offense with copies distributed to the principal or designee, the parent/guardian, and the District Transportation Department.

- Bus students must stand in an orderly manner at pickup points until the bus comes to a complete stop.
- Students must board the bus in a single file line and go directly to a seat.
- All students must remain seated while the bus is in motion. Students must remain seated until the bus has fully stopped, then enter the aisle and go directly to the front exit door. Students must exit through the front exit door after the bus has come to a complete stop. If a student must cross the road, walk 10 (ten) feet or more; wait for the driver's signal, then cross when it is safe to do so.
- Any distracting action by a student that creates a safety hazard by demanding unnecessary attention of the driver may result in disciplinary action (loud talking, use of profanity, fighting, throwing objects, smoking, standing, eating, drinking, and/or damaging the bus or bus seats).

In conformance with the *Clark County School District Pre-Kindergarten–Grade 12 Student Code of Conduct*, the site administrator will address bus misconduct in the following manner:

1. Confer with the student, the parent/guardian, or appropriate transportation staff, as necessary, to resolve student conduct problems.
2. Designate students as ineligible for transportation services when warranted and notify the District Transportation Department and the parent/guardian of the action taken.

AFTER-SCHOOL CARE PLAN

FOSTER CARE DEPARTMENT

5100 WEST SAHARA AVENUE • LAS VEGAS, NEVADA 89146 • (702) 799-3346

Dear Parent/Guardian,

Student safety is a top priority at the Clark County School District (CCSD), specifically the after-school care of our students. It is critical that you communicate with your school regarding how your child will safely leave school each day.

CCSD understands that at times circumstances may prevent the timely pickup of a student. Therefore, it is critical that alternate arrangements have been made for after-school care. In case of an emergency and a student is not picked up at the end of the school day, school staff will make an effort to reach parents/guardians and emergency contacts to arrange for student pickup. In the event that a parent/guardian or emergency contact is not reached, the school will follow the CCSD After-School Care process. Please note, below is the outline of our after-school care process when a student is not picked up after school.

- When a student is not picked up the first time, the student is sent to Safekey (unless there is an outstanding debt or no signed parent/guardian authorization). The parent/guardian is responsible for the cost of Safekey.
- When a student is not picked up the second time, the student is sent to Safekey (unless there is an outstanding debt or no signed parent/guardian authorization).
- When a student is not picked up the third time and beyond, the student is transported to the YMCA of Southern Nevada (YMCA), unless there is an outstanding debt. The parent/guardian is responsible for the cost of the YMCA.
- When a student is not picked up from the YMCA by close of business, the student may be transported to Child Haven/Child Protective Services.
- Students with disabilities may be transported directly to Variety School at 2800 Steward Avenue, Las Vegas, Nevada 89101 to ensure appropriate services and care are provided.

CCSD has partnered with several community agencies that provide after-school care programs for students. CCSD encourages all parents/guardians to enroll their students in after-school care programs in case an emergency prevents the parent/guardian from picking up his or her child from school within several minutes after dismissal. Although CCSD does not sponsor, endorse, or control any community programs, your school may help you with accessing information regarding after-school care programs, such as Safekey and the YMCA. However, your school cannot register your child. Once again, CCSD highly recommends that you register your child for Safekey even if you pick him/her up every day in case of an emergency.

Please speak with an administrator at your child's school to learn more about after-school care options. It is also extremely important that parents/guardians update their contact information throughout the school year and return the After School Care Process: Parent/Guardian Agreement and Authorization form as soon as possible.

Respectfully,

Dr. Gregory Holloway
After-School and Summer Programming Liaison
Foster Care Department

After-School Care: Parent/Guardian Agreement and Authorization

I _____, have read the attached letter outlining the Clark County School District (CCSD) After-School Care Process guidelines. I understand that if my child is not picked up at the end of the school day, school staff will make an effort to contact me and/or someone listed on my child's emergency contact form to arrange for my child to be picked up from school. In the event that I or an emergency contact cannot be reached, I understand that the school will follow the CCSD After-School Care Process.

I also understand that CCSD does not sponsor, endorse, or control any community programs including Safekey or the YMCA of Southern Nevada (YMCA). I understand that it is required that I complete this authorization, to be used only as an emergency option, if my child is not picked up from school on time and no emergency contact can be reached, in order to avoid my child being transported to Child Haven.

As part of this After-School Care Process, for the safety of your child, certain information will need to be shared with Safekey or the YMCA, if applicable. I hereby authorize CCSD to release my child's registration information to Safekey or the YMCA.

I understand that I will be responsible for charges incurred and will pay Safekey and/or the YMCA, as applicable. I also hereby authorize the Safekey program and/or the YMCA to release my child's fee balance (if any) to CCSD for the purpose of determining whether my child may be taken to Safekey or the YMCA as part of the After-School Care Process.

THE NEVADA CODE OF HONOR

Nevada Department of Education

There is a clear expectation that all students will perform academic tasks with honor and integrity, with the support of parents, staff, faculty, administration, and the community. The learning process requires students to think, process, organize and create their own ideas. Throughout this process, students gain knowledge, self-respect, and ownership in the work that they do. These qualities provide a solid foundation for life skills, impacting people positively throughout their lives. Cheating and plagiarism violate the fundamental learning process and compromise personal integrity and one's honor. Students demonstrate academic honesty and integrity by not cheating, plagiarizing or using information unethically in any way.

What is cheating?

- Cheating or academic dishonesty can take many forms, but always involves the improper taking of information from and/or giving of information to another student, individual, or other source. Examples of cheating can include, but are not limited to:
 - Taking or copying answers on an examination or any other assignment from another student or other source
 - Giving answers on an examination or any other assignment to another student
 - Copying assignments that are turned in as original work
 - Collaborating on exams, assignments, papers, and/or projects without specific teacher permission
 - Allowing others to do the research or writing for an assigned paper
 - Using unauthorized electronic devices
 - Falsifying data or lab results, including changing grades electronically

What is plagiarism?

- Plagiarism is a common form of cheating or academic dishonesty in the school setting. It is representing another person's works or ideas as your own without giving credit to the proper source and submitting it for any purpose. Examples of plagiarism can include, but are not limited to:
 - Submitting someone else's work, such as published sources in part or whole, as your own without giving credit to the source
 - Turning in purchased papers or papers from the Internet written by someone else
 - Representing another person's artistic or scholarly works such as musical compositions, computer programs, photographs, drawings, or paintings as your own
 - Helping others plagiarize by giving them your work

All stakeholders have a responsibility in maintaining academic honesty. Educators must provide the tools and teach the concepts that afford students the knowledge to understand the characteristics of cheating and plagiarism. Parents must support their students in making good decisions relative to completing coursework assignments and taking exams. Students must produce work that is theirs alone, recognizing the importance of thinking for themselves and learning independently, when that is the nature of the assignment. Adhering to the Code of Honor for the purposes of academic honesty promotes an essential skill that goes beyond the school environment. Honesty and integrity are useful and valuable traits impacting one's life.

3. Miscellaneous
 - a. Ties in basic/optional colors.

The school logo may only include the school name and/or school mascot. No other names or symbols related to school athletic teams, school clubs/activities, charitable organizations, or similar groups/organizations should be on the clothing.

Colors and styles of outerwear, such as jackets and coats, are not required to meet the color/style specifications of Standard Student Attire.

E. Special Occasions at Schools Implementing Standard Student Attire

On those CCSD/school sanctioned exemption days, schools will notify the students and parents/guardians of the unique dress provisions.

F. Compliance Measures

1. All students enrolled in site-specific schools that have determined to implement Standard Student Attire are required to wear the adopted school attire. Additionally, all Standard Student Attire violations will result in disciplinary action in alignment with the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*.
2. Each school shall develop positive reinforcement measures to encourage full compliance with Standard Student Attire. Each school should strive to achieve full compliance through use of positive reinforcement measures, and should resort to disciplinary action only when positive measures fail to ensure compliance. In addition, schools shall communicate with parents/guardians so that the expectations, rationale, and benefits are fully understood by the student and his/her family.
3. Since the intent of the policy is not to inhibit or prohibit any student who is not in Standard Student Attire from receiving the education to which he/she is entitled, no student shall receive a lowered

academic grade as a result of not complying. See CCSD Regulation 5121, Student Progress: Grading (Grades Kindergarten through Twelve). In addition, prior to initiating any disciplinary action against a student not complying with the policy, the school will conference with the student and give him or her an opportunity to change into Standard Student Attire. Additionally, a conference with the parent/guardian must be held with a school administrator to ensure the parent/guardian is aware of the policy and possible consequences of non-compliance.

4. Exemptions

a. A parent/guardian may apply for their child to be exempt from Standard Student Attire in the following instances:

- (1) When the parent/guardian can demonstrate a bona fide religious objection to wearing Standard Student Attire.
- (2) When wearing Standard Student Attire is inappropriate due to a verified medical condition.

b. Exemption Procedures

- (1) Parents/Guardians may apply for their child to be exempt from Standard Student Attire for that particular school year by submitting a written, signed Application for Exemption to the school principal.
- (2) If the parent/guardian requests an exemption based upon a bona fide religious objection, the Application for Exemption must include a written statement explaining the religious belief and how it is adversely affected by complying with Standard Student Attire.
- (3) The parent/guardian shall meet with the school principal or designee to discuss Standard Student Attire and the nature of the objections to Standard Student Attire. The purposes of this meeting include (a) ensuring that the parents/guardians understand the reasons for and goals of Standard Student Attire; (b) verifying the accuracy of the information on the Application for Exemption; and (c) preventing fraud or misrepresentation.

(4) A decision to grant or deny the Application for Exemption will be made by the school principal. If the principal denies the Application for Exemption, the parent/guardian may appeal the decision to the region superintendent or school associate superintendent. If the denial is upheld by the school associate superintendent/designee, the parent/guardian may appeal the decision to the Superintendent of Schools or designee. The decision by the Superintendent of Schools or designee shall be final. The student will be exempt from the Standard Student Attire requirements while the Application for exemption is being processed. During this time, students will still be required to comply with the Basic Student Dress Code provisions as set forth in Section IV.

5. Students will be expected to wear the school approved Standard Student Attire during regular school hours while in attendance at the school or school approved functions. Regular school hours are considered to be the accepted regular school academic day.

G. Information Dissemination

It is the responsibility of the school to communicate to parents/guardians information including general guidelines for enforcement of Standard Student Attire.

H. Financial Considerations

1. No students shall be denied attendance at school, penalized, or otherwise subject to compliance measures for failing to wear Standard Student Attire by reason of financial hardship.
2. Each school shall:
 - a. Develop a procedure to identify families in need of financial assistance.
 - b. Work with staff, the local school community, and business partners to identify resources for assisting families.
 - c. Assist those identified families to purchase the approved attire.

VI. Standard Student Attire Determination Procedure

Parent/Guardian support for Standard Student Attire is critical for its implementation and success. Therefore, parent/guardian involvement in the decision-making process must take place throughout the procedure.

Prior to the implementation of voluntary or mandatory Standard Student Attire, the individual school considering Standard Student Attire will:

- A. Ensure student, parent/guardian, and staff input and involvement throughout the decision-making process.
- B. Thoroughly review with students, parents/guardians, and staff available research on the advantages/disadvantages of Standard Student Attire.
- C. Openly communicate with students, parents/guardians, and staff all issues of Standard Student Attire actively seeking their input, suggestions, and recommendation(s).
- D. Should a decision be made to implement Standard Student Attire, the principal and the site-based committee shall determine Standard Student Attire. The committee membership shall align with the requirements set forth in Section V(C).
- E. If a school has met the criteria provided for in Section V(A), the principal, with the approval of the region superintendent or school associate superintendent, will determine whether to implement mandatory Standard Student Attire. The requirement to survey families contained in Section V(A)(1) does not apply to voluntary Standard Student Attire.
- F. With approval of the region superintendent or school associate superintendent, a school and the Standard Student Attire site-based committee in accordance with CCSD established timelines, may initiate after a minimum of one year of implementation, the survey process in order to discontinue implementation of mandatory Standard Student Attire prior to the expiration of the identified survey cycle.
- G. In order to give adequate time to plan for the opening of the school year, notification of the final decision will be sent to families that make up the population of the student body via the District's communication method no later than May 31 of the current school year. Results will also be posted on the school's public website no later than May 31 of the current school year. Upon parent/guardian request, printed notification will be provided.
- H. The requirement to survey families contained in Section V(A)(1) does not apply to schools which provide services in an alternative school

setting/location as identified by the Education Services Division. It is not practical to survey families at these schools due to the temporary assignment of the student population. Therefore, the Assistant Superintendent of the Education Services Division shall have the authority to adopt Standard Student Attire as identified in Section V(D) at these schools.

**CLARK COUNTY SCHOOL DISTRICT REGULATION 5114.1,
DISCIPLINE: SUSPENSION**

CLARK COUNTY SCHOOL DISTRICT REGULATION

R-5114.1

DISCIPLINE: SUSPENSION

I. Implementation

The Education Services Division is responsible for developing and implementing procedures for student suspension and will specify the procedures in the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct* in accordance with Board of School Trustees policies and Nevada Revised Statutes (NRS) 392.467.

Significant suspensions as defined by Assembly Bill 67 of the 81st Session (2021) of the Nevada Legislature prescribes that the school in which the student is enrolled (a) prohibits the students from attending a school for three or more consecutive days, and (b) requires a conference or other form of communication with the parent/guardian of the student before the student is allowed to return to school.

II. Procedures

Suspension is the disciplinary removal of a student from school for any of the applicable offenses outlined in the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*. When circumstances permit, students who must be removed from a classroom or playground should remain at school to engage in restorative practices and participate in as much of the educational program as possible. The primary purpose of a suspension is to provide the student, the student's parent/guardian, and the school the time needed for resolving a problem. The parent/guardian must be notified in writing of each suspension. Reasonable effort must be made to contact the parent/guardian regarding the impending suspension before the student leaves the school.

- A. Since the time and actions needed to resolve problems depend on individual circumstances, the duration of a suspension shall in all cases be related to a course of action designed to resolve the problem. The duration shall be specified in advance only when known factors preclude immediate resolution. The student shall be readmitted as soon as the school has reasonable assurance that the problem has been resolved or significantly improved.
- B. The school may impose appropriate requirements relating to parent/guardian contacts, the student's future behavior at a school, and school work to be done during suspension as outlined in District regulations.
- C. A Notice of Suspension is generated by the principal, assistant principal, or student success coordinator when a student is being placed on suspension, including in cases of a more serious nature or when circumstances may warrant further action, such as an academic center referral or an expulsion recommendation. Within three school days of suspension, a conference with

the student; parent/guardian; and principal, assistant principal, or student success coordinator is to be held. If a recommendation to attend an academic center or expulsion is made, a suspension will remain in effect until the final disposition of the academic center or expulsion recommendation. No student who is participating in a program of special education or receiving services pursuant to Section 504 of the Rehabilitation Act of 1973 shall be placed on a suspension for more than five school days per occurrence dependent on the student's status. Students receiving, and students who have been identified as qualifying for, special education and/or 504 services shall be disciplined in accordance with the provisions of Part B of the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973.

- D. Students suspended are not allowed on a school campus or at any school-sponsored activity for any reason without the express prior permission of the principal. When a student is placed on a suspension for any offense, the appropriate administrator will read the following statement to the student and will verify that act by making a notation on the Notice of Suspension:

“As the duly appointed representative of the owner of school district property, I hereby warn you that should you come on this or any school district property during the term of this suspension without the express prior permission of the principal, you will be trespassing upon this property as defined by NRS 207.200 and may be subject to arrest for a misdemeanor.”

- E. Before suspending a student experiencing homelessness or residing in foster care from a classroom or any other premises of a public school for more than one school day, the principal of the school must consult with the appropriate personnel to determine if the student's situation led to the behavior incident in alignment with Senate Bill 354 of the 81st Session (2021) of the Nevada Legislature.

III. Appeal Process

In accordance with Assembly Bill 194 of the 81st Session (2021) of the Nevada Legislature, information on the right to appeal a suspension must be provided to the parent/guardian of the student on the same day a suspension is issued. The parent/guardian of the student, or the student if he/she is 18 years of age or older, must attend the suspension conference with the assistant principal or student success coordinator prior to filing an appeal with the principal. If the principal issued the suspension, the parent/guardian of the student, or the student if he/she is 18 years of age or older, must attend the suspension conference with the principal prior to filing an appeal with the site's supervisor. If applicable, a conference with the teacher or staff member who reported the behavior offense, will also occur within three days of the student removal.

IV. Hearing Process

The principal of a school shall serve as the Board of School Trustees designee for suspension hearings. The length of a suspension following an appeal may not be increased.

CLARK COUNTY SCHOOL DISTRICT REGULATION

R-5114.2

DISCIPLINE: EXPULSION PROCEDURES

- I. Expulsion is the removal of a student from school for any of the applicable offenses outlined in the *Clark County School District K-12 Student Code of Conduct*. Students receiving, and students who have been identified as qualifying for special education and/or 504 services, shall be disciplined in accordance with the provisions of Part B of the Individuals with Disabilities Act (IDEA) and Section 504 of the Rehabilitation Act of 1973. The procedures for determining whether a student should be recommended for expulsion are set forth below.
 - A. The principal or designee shall report any violation of the law to the appropriate law enforcement agency.
 - B. The principal shall suspend the student by use of a Notice of Suspension pending further investigation by administration and review of the facts, which may lead to a recommendation for expulsion.
 - C. Within three (3) school days of the suspension, the principal or designee must conduct a hearing with the student and the student's parent/guardian to discuss the investigation of the incident, the violation of school rules and/or District regulations, and the student's prior discipline history, as well as any information submitted that the parent/guardian would like the principal or designee to consider as it relates to the suspension and the possible recommendation for expulsion.

At the conclusion of the hearing, the principal or designee shall make a decision regarding the disciplinary action, which may include a recommendation for expulsion. The principal or designee must recommend expulsion if it is determined at the hearing the student has or is believed to have committed the offense of possession of a firearm or dangerous weapon, as defined by Nevada Revised Statutes (NRS) 392.466 while on the premises of any public school, at an activity sponsored by a public school, or on any school bus, which requires a mandatory recommendation for expulsion.

- D. If the student is to be recommended for expulsion, the parent/guardian must be informed of the due process procedures available. The parent/guardian must decide whether to contest or not contest the expulsion and sign a statement to that effect. If the parent/guardian does not sign the statement, the expulsion will be treated

R-5114.2 (Page 2)

as a contested expulsion. The parent/guardian will be provided in writing with the available due process procedures. These procedures will be provided during the hearing with the principal or designee, or with the written decision.

- E. The student is at least eleven (11) years of age (no age limitation for general education students) for possession of a firearm or dangerous weapon, as defined by NRS 392.466, while on the premises of any public school, at an activity sponsored by a public school, or on any school bus.
 - F. The school shall provide a restorative plan of action to the parent/guardian of the student.
- II. The following levels of due process are available to the parent/guardian of a student who is being recommended for expulsion:
- A. A hearing will be conducted by the principal or designee. The principal will disclose information obtained during the investigation of the incident which resulted in the recommendation for expulsion. This information, as well as the student's prior disciplinary record will be reviewed with the student and the parent/guardian. The parent/guardian must be allowed to present any information to the principal or designee that the parent/guardian would like the principal or designee to consider. The student must also be allowed to be heard regarding the incident resulting in the recommendation for expulsion.
 - B. At the conclusion of the hearing, the principal or designee shall inform the parent/guardian of the decision and must within two (2) school days following the hearing provide written notice to the parent/guardian of the decision regarding the recommended expulsion.
 - C. If the decision to recommend expulsion is upheld by the principal, the principal or designee will forward the required documentation (as listed on Clark County School District Referral School Form to the applicable region behavior director within two (2) school days.
 - D. Within three (3) school days of receiving the principal's recommendation, the region behavior director will review the recommendation to assure compliance with due process procedures and evaluate the appropriateness of the discipline recommended. The region behavior director will determine whether the recommended expulsion should be limited or permanent as defined in Section III (D)(4), or modified.
 - E. Within two (2) school days after a determination has been made, the region behavior director will notify the parent/guardian of the recommendation and determination.

- F. If the decision to recommend expulsion is upheld and the parent/guardian decides to contest the expulsion recommendation, the parent/guardian must notify the region behavior director of the intent to contest the recommendation for expulsion within fourteen (14) days of receiving notice of the recommendation for expulsion. Within fourteen (14) days after receipt of the notice contesting the expulsion, a hearing will then be scheduled for an Education Services Division Hearing Panel.

III. EXPULSION HEARING PANEL

- A. The Education Services Division Hearing Panel, selected by the assistant superintendent, Education Services Division or designee, will consist of three (3) members as follows:
 - 1. A secondary education administrator;
 - 2. A secondary education professional licensed staff; and
 - 3. A secondary education support professional.
- B. The members of the Education Services Division Hearing Panel may not be selected from the school from which the student was recommended for expulsion.
- C. Clark County School District police officers may not serve as members of the Education Services Division Hearing Panel.
- D. The Education Services Division Hearing Panel will make the following determinations:
 - 1. What disciplinary offense, if any, has been committed by the student.
 - 2. If the student has committed a disciplinary offense, what is the appropriate consequence and educational placement.
 - 3. The Education Services Division Hearing Panel must consider the nature of the offense; the student's disciplinary history for one calendar year prior to the recommendation for expulsion; the student's academic record and academic concerns; as well as any district regulations, and state or federal laws.
 - 4. If the Education Services Division Hearing Panel determines that the student has committed the offense for which the student has been charged, the Education Services Division Hearing Panel may decide on:

- a. Permanent expulsion - Permanent expulsion means permanent removal of a student from a regular school campus and contemplates no trial enrollment except for alternative school placement.
 - b. Limited expulsion - Limited expulsion allows a student to return to a regular school campus, which may or may not be the campus from which the student was expelled, on a trial enrollment following a successful period of alternative school placement, except that no student who has been twice expelled for an offense for which a mandatory expulsion recommendation must be made in accordance with Clark County School District Regulation 5141.1 may be granted more than one (1) trial enrollment in Grades 6 through 8 and one (1) trial enrollment in Grades 9 through 12.
 - c. A modified plan for school placement.
5. If the disciplinary offense falls under NRS 392.466, mandatory expulsions, and the Education Services Division Hearing Panel determines that the student did commit the disciplinary offense, the Education Services Division Hearing Panel has the authority to modify the expulsion recommendation, if such modification is made in writing and the Education Services Division Hearing Panel determines that a restorative plan of action may be used successfully.
- E. If appropriate, the assistant superintendent, Education Services Division, may process an appeal directly to the Board of School Trustees Expulsion Review Board.
 - F. If the Education Services Division Hearing Panel upholds the decision to expel the student and the parent/guardian does not agree with the decision of the Education Services Division Hearing Panel, the parent/guardian may appeal the decision to the Board of School Trustees Expulsion Review Board.
 - G. An appeal to the Board of School Trustees Expulsion Review Board must be requested in writing and submitted to the assistant superintendent, Education Services Division, or designee no later than fourteen (14) days after receipt of the decision of the Education Services Division Hearing Panel.

IV. EXPULSION REVIEW BOARD

- A. The Board of School Trustees Expulsion Review Board will consist of a panel composed of three (3) members, with no more than two (2) members of the Board of School Trustees selected on a rotating basis and an individual selected from a pool of individuals to be identified by the Superintendent of Schools or designee. The Board of School Trustees Expulsion Review Board will conduct an evidentiary hearing at which both, a school administrator(s) and the student and parent/guardian, may present evidence, testimony, and argument related to the student's alleged misconduct and the appropriate discipline in view of all the circumstances, including any prior disciplinary intervention(s) by the school. The evidence and testimony may be directed to the incident itself and/or to the character of the student, including, for example, no more than three (3) other persons familiar with the character or background of the student. Such evidence may not include testimony or other evidence regarding the school disciplinary status of other students who may have been involved in the incident.
- F. The student may be represented by legal counsel at the Board of School Trustees Expulsion Review Board hearing, if the parent/guardian so desires, at no expense to the District. The school shall be represented by the Office of the General Counsel. The Board of School Trustees

Expulsion Review Board will be represented by counsel from the Office of the Clark County District Attorney.

- G. The Board of School Trustees Expulsion Review Board must make the following determinations:
 - 1. What disciplinary offense, if any, has been committed by the student; and
 - 2. If the student has committed a disciplinary offense, what is the appropriate consequence and educational placement considering the nature of the offense, the student's disciplinary history for one (1) calendar year prior to the date of the subject offense, as well as the student's overall academic record or any other academic concerns.
- H. The Board of School Trustees will be informed by the assistant superintendent, Education Services Division, or designee, of the decision of the Board of School Trustees Expulsion Review Board.
- I. The Board of School Trustees will not conduct a formal hearing regarding the decision of the Board of School Trustees Expulsion Review Board, having designated the Board of School Trustees Expulsion Review Board as the final level of due process for the review of an expulsion recommendation, including expulsion recommendations which result from conduct that is in violation of the Federal Gun-Free Schools Act of 1994. If the disciplinary offense falls under NRS 392.466, mandatory expulsions, and it is determined that the student did commit the disciplinary offense the Board of School Trustees Expulsion Review Board has the authority to modify the expulsion, if such modification is made in writing and the Board of School Trustees determines that a restorative plan of action may be used successfully.

Extensions of this timeline may be made by the District if needed, and parents/guardians will be notified of any extension via telephone, email, or in person.

5. For discipline that does not result in a recommendation for behavior school or expulsion, the decision of the principal/school associate superintendent/region superintendent (as applicable) is the final level of appeal at the District.
6. If a student is referred to a behavior school or for expulsion, the same process outlined above should occur; however, the process will continue through the appeal process administered by the Education Services Division (ESD). After the ESD appeal is complete, the District's decision is final.
7. Not later than thirty (30) days after receiving notification of the final decision of the District, the parent/guardian may submit a complaint/appeal to the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education concerning the outcome of the appeal or an alleged violation of the discrimination based on race, bullying, or cyberbullying laws. The procedures for submitting a complaint/appeal are set forth in Chapter 388 of the Nevada Administrative Code (NAC), a copy of which is distributed annually to all parents/guardians of students enrolled in the District.
8. This appeal process applies to school issued discrimination based on race, bullying, or cyberbullying disciplinary action only. It does not apply to any citation or action imposed by CCSD Police Services or local law enforcement when the conduct also involves a criminal offense.

B. Appeal Process for the Alleged Victim

1. The parent/guardian of the alleged victim may appeal a determination that the discrimination based on race, bullying, or cyberbullying was "unsubstantiated" within ten (10) school days of the issuance of the initial determination contained in the discrimination based on race, bullying, or cyberbullying Written Report.
2. The level of discipline imposed/not imposed is not subject to appeal by the victim at the local level given that the District cannot disclose those details to the parent/guardian of the alleged victim under FERPA.
3. If the assistant principal or student success coordinator issued the initial finding/decision contained in the discrimination based on race, bullying, or cyberbullying Written Report, the parent/guardian of the alleged victim may appeal to the principal. In these cases, there is no right to another appeal with the school associate superintendent/region superintendent.
4. If the principal issued the initial finding/decision contained in the discrimination based on race, bullying, or cyberbullying Written Report, the parent/guardian of the alleged victim may appeal to the school associate superintendent/region superintendent.

5. Upon receiving an appeal request, the principal/school associate superintendent/region superintendent (as applicable) must contact or meet with the parent/guardian to hear their concern(s) within five (5) school days from the date of the request. Within ten (10) school days following the contact/meeting, the principal/school associate superintendent/region superintendent must inform the parent/guardian of his/her decision: uphold, modify, or rescind. Extensions of this timeline may be made by the District, if needed, and parents/guardians will be notified of any extension via telephone, email, or in person.
 6. The decision of the principal/school associate superintendent/region superintendent (as applicable) constitutes the final decision at the district level.
 7. Not later than thirty (30) days after receiving notification of the final decision of the District, the parent/guardian may submit a complaint/appeal to the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education concerning the outcome of the appeal or an alleged violation of the discrimination based on race, bullying, or cyberbullying laws. The procedures for submitting a complaint/appeal are set forth in NAC Chapter 388, a copy of which is distributed annually to all parents/guardians of students enrolled in the District.
- C. When a staff member is involved in the alleged discrimination based on race, bullying, or cyberbullying of a student, the District will follow the bullying process. However, there are other labor and employment law implications. These procedures are addressed in separate administrative guidelines.
